Project Design Phase-I
Solution Architecture

Date	23 October 2022
Team ID	PNT2022TMID42697
Project Name	Project – Global Sales Data Analytics
Maximum Marks	4 Marks

Solution Architecture:

A complicated process with numerous sub-processes, solution architecture connects business issues with technological solutions. Its objectives are,

- To Solve current business issues, choose the most effective technological solution.

- To Give project stakeholders a description of the software's structure, attributes, operation, and other features.

- To Define the solution's conditions required, development stages, and functionalities.

- To Offer guidelines for how the solution is created, managed, and delivered.
